# Message from the Chairman & Managing Director

Shri D. Rajeshwar Reddy
Chairman and Managing Director
Edify World School – Attapur

A truly progressive institution does not simply measure itself by the curriculum it delivers, but by the intellectual ecosystems it builds beyond the classroom. When we look at the defining milestones of this past month, what stands out is our deliberate focus on bringing global discourse, cross-disciplinary innovation, and future-ready career pathways directly to Edify World School, Attapur.

Our strategic vision comes alive in initiatives such as the Future's Forum (2nd Edition), where industry leaders and professionals gathered on our campus for high-level career path debates, and our extensive Career Fair, designed to demystify emerging global industries for our senior learners. Furthermore, our flagship international experiential learning initiative—the STEM trip to Singapore for our middle and high school students—was engineered to move beyond textbook learning, immersing our young innovators in world-class science, technology, and engineering environments. Whether our students are debating industry futures at home or engaging with international technology hubs abroad, our foundation remains clear: blending immersive global exposure with deliberate academic pathways so every Edify student steps into the future with absolute confidence and purpose.

# Message from the Academic Director

Shrimati D Haritha Reddy
Academic Director
Edify World School – Attapur

A school's intellectual depth is directly anchored in the caliber of its educators and the authenticity of the learning experiences it curates. Great teaching goes beyond syllabus completion; it sparks the critical thinking required to synthesize, create, and solve real-world problems through hands-on engagement and technical mastery.

This culture of inquiry is reflected dynamically in our students' academic and technical rigor this season. We are immensely proud of our young innovators who competed at the Tech Radiance Zonal Level Competition and successfully qualified for the prestigious National Level competition to be held in January at IIT Delhi. Preparing for such an advanced technical arena demands analytical precision, collaborative engineering, and deep problem-solving capabilities. Simultaneously, through our cultural and experiential milestones—including our immersive national trip to Kerala, which tied classroom geography and anthropology to rich field studies—our learners continually bridge theory and reality. It is this balance of technical ambition and experiential inquiry that defines our academic philosophy at Edify.

# Message from the Principal

Shrimati Asha Rajeev Nair
Principal
Edify World School – Attapur

Dropping the traditional greeting entirely—let's dive straight into the energy of what our students accomplished this month:

There is a distinct kind of electricity that runs through a school when big things are happening all at once. Between watching our students light up the campus for Diwali, seeing them immerse themselves in the living classrooms of our national trip to Kerala, and tracking the intense preparation of our teams heading to the IIT Delhi national tech finals, this past month has been a masterclass in momentum.

What stands out isn't just the destination—whether that's a qualifying round at a premier institute or a cultural celebration back home—it's the sheer resilience it takes to get there. Juggling rigorous technical competitions, stepping out of comfort zones on experiential trips, and holding onto that sense of shared joy as a community takes real heart. Watching our kids show up for every challenge with curiosity and grit is what makes this journey so rewarding for all of us.

# KEY ANNOUNCEMENTS & SCHOOL INITIATIVES

## A Proud Moment for Edify World School, Attapur!

We are delighted to announce that our school has received the prestigious Sustainability Superstar Award. Congratulations to our respected Principal, Mrs. Asha Nair Ma'am, on this wonderful achievement! This recognition reflects our commitment to building a greener, more sustainable future and inspiring young minds to care for our planet.

KEY ANNOUNCEMENTS & SCHOOL INITIATIVES

# Exploring New-Age Careers at Future's Forum '26

Edify World School, Attapur, organised Future's Forum 2026 on 31st October, themed "Beyond the Conventional: Exploring New-Age & Interdisciplinary Pathways." The forum brought together distinguished experts from Liberal Arts, Design, Higher Education and Technology. The panel discussed emerging academic opportunities, interdisciplinary learning and evolving career prospects. Experts also shared valuable insights into university admissions and the skills needed for future careers. Students and parents of Grades 10–12 gained meaningful guidance to make informed higher education and career choices. The event encouraged students to explore diverse possibilities and look beyond conventional career pathways.

## EWSA UniExplore Fair '26 Guides Students Towards Higher Education

On 28 October, Edify World School, Attapur, successfully hosted the EWSA UniExplore Fair '26, bringing together over 70 esteemed Indian universities. The fair provided a common platform for students to explore diverse higher education opportunities. Students from Grades 9–12 across the CBSE and CIE curricula participated enthusiastically. University representatives offered insights into undergraduate programmes and admission requirements. Students also learnt about scholarships and emerging academic pathways. The event empowered students to make informed decisions about their future academic and career journeys.

# KEY ANNOUNCEMENTS & SCHOOL INITIATIVES

## STEM Educational Trip to Singapore

Students embarked on an exciting STEM educational trip to Singapore during the October Dussehra break. The visit provided valuable exposure to science, technology, engineering and innovation through experiential learning. Students explored leading educational and technological attractions, gaining insights into real-world applications of STEM. The trip encouraged curiosity, creativity, teamwork and global awareness among the participants. It was a memorable learning experience that extended education beyond the classroom.

## National Excursion to Kerala

After wrapping up a demanding term of exams, our students traded their textbooks for the vibrant landscapes of Kerala during the Dussehra break, embarking on an unforgettable national educational trip.

The journey was a perfect blend of awe-inspiring sights and rich cultural immersion. Standing before the monumental Jatayu Earth Center, students experienced firsthand the staggering scale of the world's largest bird sculpture while exploring the mythological and ecological significance embedded in the hills. Beyond the landmarks, the trip offered a deep dive into Kerala's unique heritage—from interacting with local artisans and tasting traditional coastal flavors to witnessing the state's vibrant performing arts and tranquil backwater ecosystems.

## Students Qualify for National-Level Techradiance Junior World Cup 2026 at IIT Delhi

Students from grades 6-12 participated in the Techradiance Junior World Cup 2026 – Mini Humanoid Robot Challenge, at Zonal Level, providing students with an opportunity to explore robotics and technological innovation. The competition encouraged young learners to apply their STEM knowledge, creativity and problem-solving skills. Students underwent hands-on training and participated in the challenge with great enthusiasm. Their efforts resulted in several students qualifying for the National-Level Competition to be held at IIT Delhi. The school congratulates all participants and wishes the qualified students success in the next stage of the competition.

## Young Entrepreneurs Showcase Their Creativity at NEC Junior Startup Mela

As part of NEC Junior – E-Cell, IIT Mumbai, the Student Entrepreneurship Club organised a vibrant Startup Mela for students of Grades 6–12. A total of 21 teams, comprising groups and individual participants, set up stalls showcasing a variety of products and services. The stalls featured handmade diyas, crochet bags, toys, keychains, games and homemade sustainable food items. The event provided students with a valuable opportunity to develop entrepreneurial skills, creativity and teamwork. It also helped them gain practical experience in marketing, pricing, customer interaction and managing a business. The mela encouraged innovation, self-confidence and an entrepreneurial mindset among young learners.

## GoSharpener: Promoting Healthy Eating and Sustainability

As part of our school's initiative towards sustainability, the school has collaborated with GoSharpener, a platform promoting sustainable lifestyle. Under this initiative Grade 4 students participated in a hands-on activity by preparing healthy, protein-rich tacos, encouraging nutritious food choices, creativity and teamwork. The initiative also celebrated the winners of The Great India Quiz from Grade 5, who received GoSharpener kits and certificates. Through these engaging activities, students developed an awareness of healthy lifestyles and environmental sustainability, learning the importance of making responsible choices for a healthier and greener future.

# KEY ANNOUNCEMENTS & SCHOOL INITIATIVES

# STUDENT EXCELLENCE & ACHIEVEMENTS

## Young Skating Champion Shines at District Level!

Sri Sudha Dhruthi Tekuru of Grade 2 Explorers brought immense pride and honour to the school with her outstanding performance at the Hyderabad District Roller Skating Championship. Demonstrating exceptional talent, dedication and determination, she secured first position in all her district races, winning an impressive two gold medals. This remarkable achievement reflects her hard work, discipline, perseverance and passion for the sport. Her consistent performance has earned her direct qualification for the prestigious Telangana State Roller Skating Championship, marking another significant milestone in her sporting journey. Competing at the district level at such a young age is a commendable accomplishment and highlights her enthusiasm, confidence and sporting spirit. Her success also serves as an inspiration to her peers, encouraging them to pursue their interests, participate in sporting activities and strive for excellence. We congratulate Sudha Dhruthi on this wonderful achievement and wish her continued success and the very best for the upcoming state-level championship. May she continue to shine and bring many more laurels to the school!

# STUDENT EXCELLENCE & ACHIEVEMENTS

## Edify World School Students Win Six Medals at 70th SGF Taekwondo Tournament

Students of Edify World School, Attapur, brought pride to the school with an impressive performance at the 70th School Games Federation (SGF) Taekwondo Tournament, held at ARCA International School, B.N. Reddy. Demonstrating exceptional skill, discipline and determination, the students secured a total of six medals across the Under-14 and Under-17 categories, comprising four silver and two bronze medals. In the Under-14 category, Lucky Amore Deena of Grade 6, CIE, Explorers, and Mantha Prahlad of Grade 7, CBSE, Stalwarts, won silver medals, while Vihas Ram of Grade 7, CIE, Explorers, secured a bronze medal. In the Under-17 category, Shashvat Thakur of Grade 9, CBSE, Inquirers, and Rasamalla Hridyanshu of Grade 8, CBSE, Inquirers, clinched silver medals. Meezan Sadiq of Grade 9, CIE, Inquirers, added to the school's achievement by winning a bronze medal.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Learning Through Fun: Fitness and Tambola Challenge

Little learners enjoyed an exciting blend of fun and learning through the 60-Second Fitness Challenge and a lively game of Tambola.
They enthusiastically performed activities like clapping, twirling and hopping, counting their movements within one minute. The Tambola game helped them recognise numbers, listen attentively and respond quickly. Both activities enhanced their gross motor skills, coordination, balance, concentration, counting and number recognition. The joyful sessions encouraged active participation, confidence, healthy habits and learning through play.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## A Blend of Numbers, Words and Festivities

Our young learners participated in engaging activities that combined practical learning with creativity. Grade 3 students explored money, shopping and simple calculations through the Math Mini Market, developing essential mathematical and life skills. They also celebrated the spirit of Holi through a creative bucket activity, enhancing their Hindi vocabulary and understanding of the festival. Both activities encouraged hands-on learning, confidence and joyful participation.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## EdiTalk Series – Learning Beyond the Classroom

The EdiTalk Series brought parents into the classroom to share their knowledge, experiences and valuable insights with our Grade 1 Edifians. Through interactive discussions, engaging explanations and hands-on activities, parent guest speakers explored important aspects of everyday life, including time management, healthy habits and mindful screen time. Students enthusiastically participated, asked questions and gained meaningful real-world perspectives. The initiative strengthened the bond between home and school, celebrating parents as valuable partners in education. We extend our heartfelt gratitude to all the parents for making learning an enriching and memorable experience.

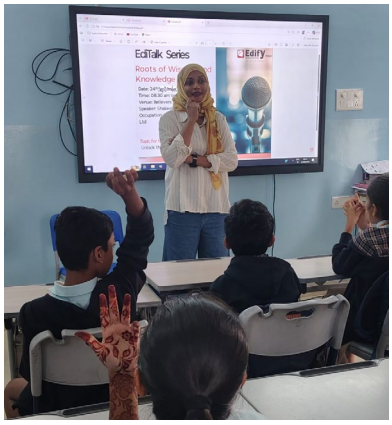

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

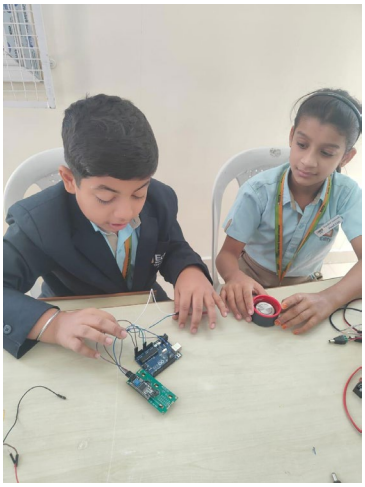

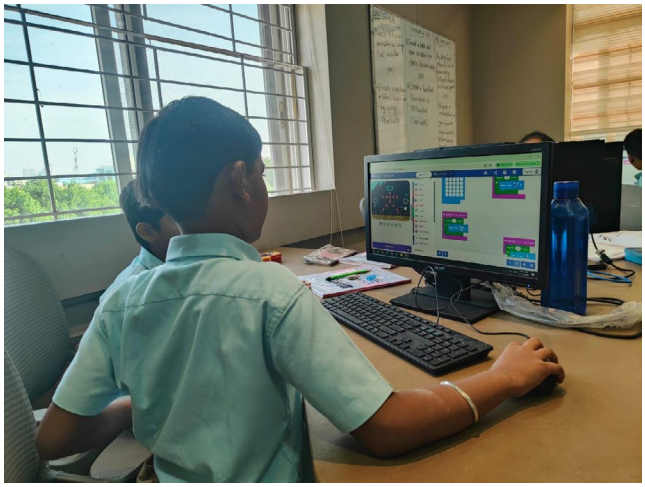

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

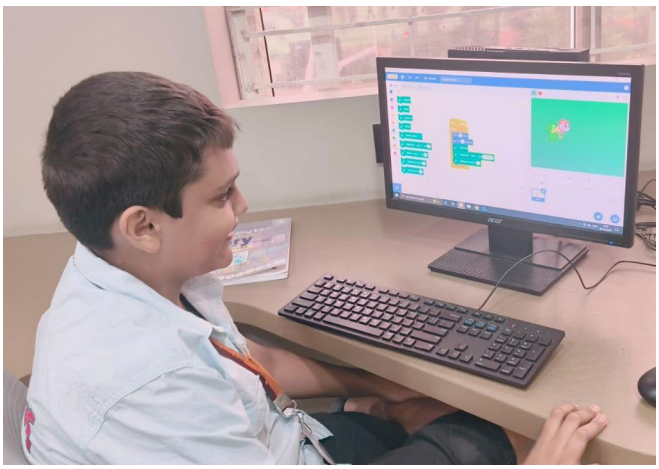

## Coding, Creativity and Innovation in Action

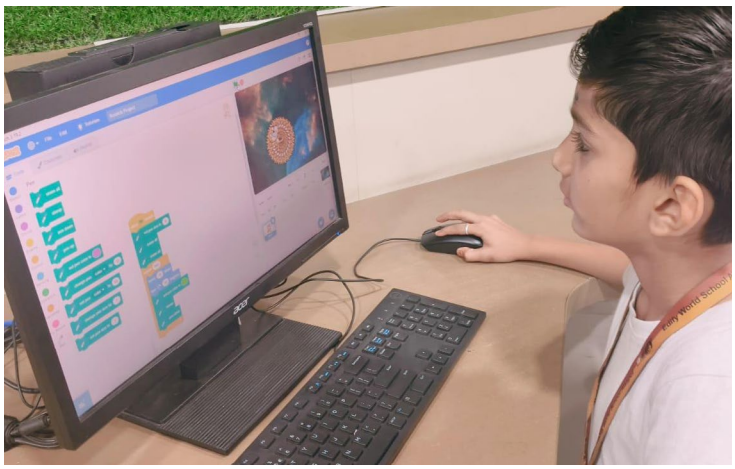

Students of grade 5 explored the world of coding through hands-on activities using Scratch 3.0 and BBC micro as part of their ICT and Robotics & AI lessons. They developed computational thinking and logical reasoning through block-based programming, using variables, button inputs, sequences and arithmetic operations. Students also took on logic-based challenges and explored a Water Level Monitoring System, gaining practical experience with sensor-based technology. The activities fostered creativity, teamwork and problem-solving skills. It was wonderful to see students transform their ideas into interactive projects through coding and innovation!

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Growing with Confidence, Expressing with Creativity

Grade 5 students participated in engaging activities that encouraged self-discovery, confidence and creative expression. Through the Value Education session, "It's Me," they explored their strengths, emotional awareness and the importance of kindness, honesty, respect and responsibility. They also learned to set personal goals, dream big and believe in themselves. In an English activity, students explored personification by transforming everyday objects into imaginative characters through creative sentences. These experiences nurtured self-confidence, empathy, imagination and a deeper appreciation of language.

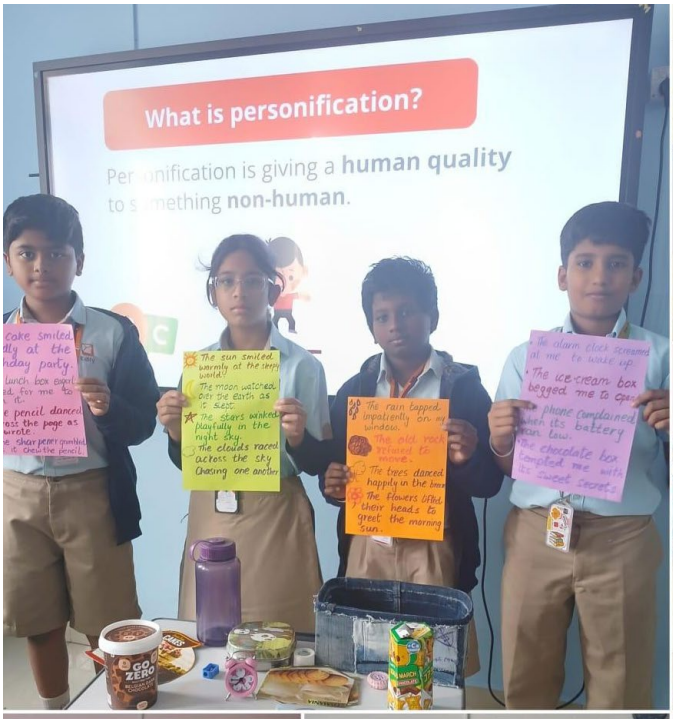

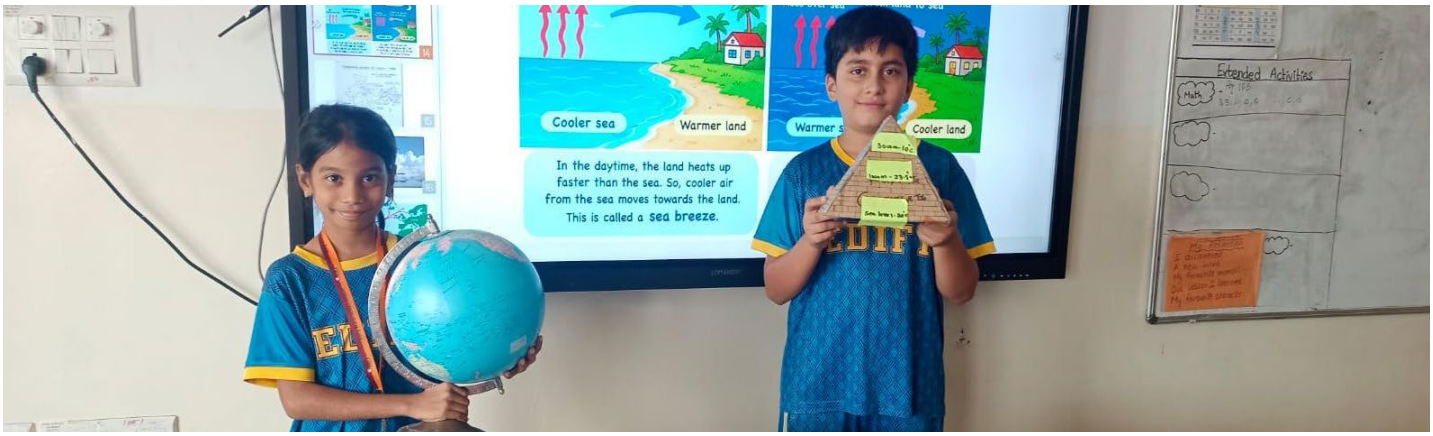

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Learning Beyond Textbooks: Maths Meets Geography

Students of Grade 5 participated in engaging, interactive activities that connected classroom learning with creativity and real-life applications. In Mathematics, they created colourful Decimal Art using grids to understand tenths and hundredths visually. In Geography, students explored the factors affecting climate, including latitude, altitude, ocean currents and prevailing winds, through maps, charts and group presentations. These activities strengthened conceptual understanding, creativity, critical thinking and teamwork. The enthusiastic participation made learning both enjoyable and meaningful!

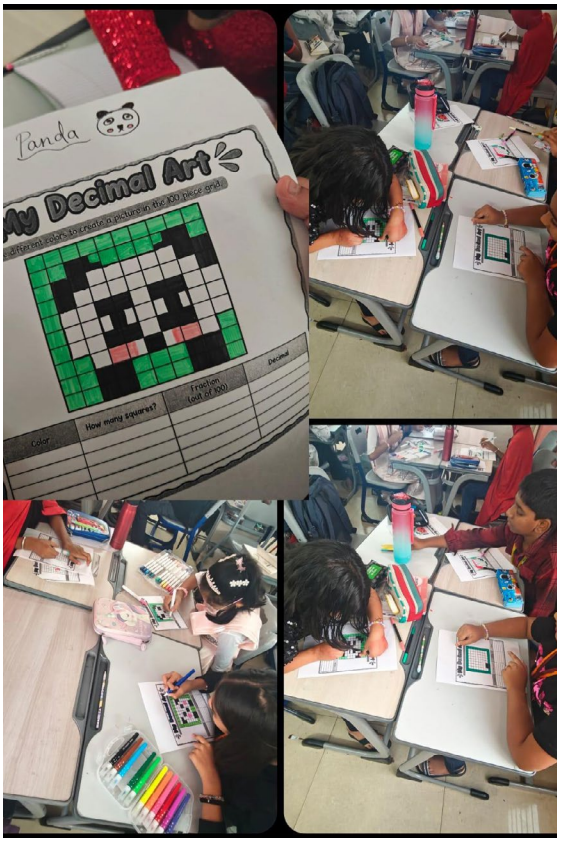

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

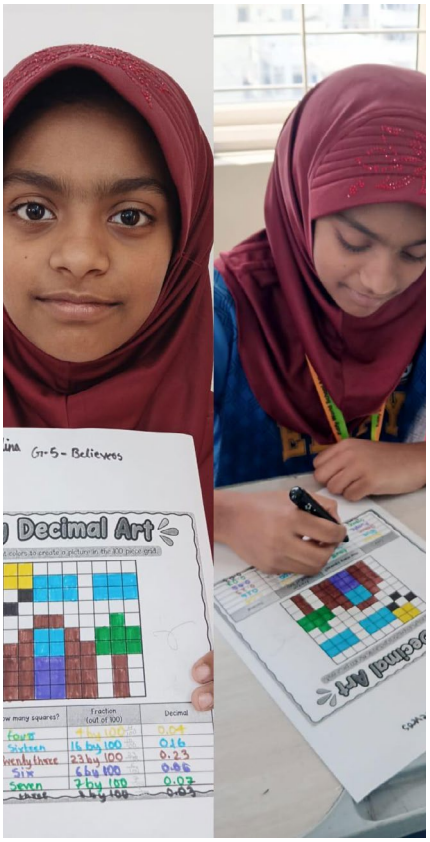

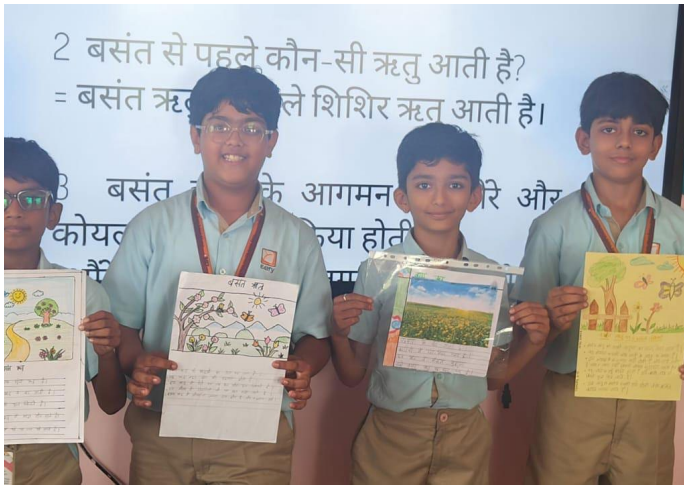

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Celebrating Nature, Seasons and Village Life

Grade 5 Students enthusiastically participated in creative classroom activities exploring the six seasons of India, with a special focus on the beauty of spring, known as the "King of Seasons". They prepared colourful charts depicting blooming flowers, butterflies and greenery, highlighting the importance of nature. As part of the Telugu lesson Maa Ooru (Our Village), students also created beautiful village models and drawings. They confidently presented their work in Telugu, showcasing their understanding of village life, culture and cleanliness. These activities encouraged creativity, language skills and an appreciation of nature and our cultural heritage.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Building Knowledge: A Hands-on Journey Through the Skeletal System

Students participated in an engaging, hands-on activity to explore the human skeletal system. They identified and labelled different bones of the skeleton while learning about various types of joints, including fixed, hinge, ball-and-socket and gliding joints. Using models and charts, they gained a better understanding of the structure and functions of bones and joints. The interactive activity made learning Biology enjoyable and meaningful while encouraging curiosity and active participation.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

The Great India Quiz 4.0 was conducted in August to celebrate India's rich history, culture, heritage and achievements. The event featured exciting rounds, including the Visual, Rapid-Fire and Buzzer rounds, keeping participants and the audience engaged. Students participated enthusiastically, showcasing their impressive general knowledge and competitive spirit. Winners were felicitated with certificates and prizes for their outstanding performance. The quiz proved to be an enriching experience, fostering learning and instilling a sense of pride in our nation.

# LEARNING IN ACTION (CURRICULUM HIGHLIGHTS)

## Celebrating Creativity – Cultivating Arts

Certificates were distributed to students in recognition of their enthusiastic participation in the Cultivating Arts competition held last month. The occasion celebrated their creativity, dedication and artistic talents. It was a proud moment as learners received appreciation for their efforts and showcased their passion for the arts. The initiative encouraged artistic expression and motivated students to continue exploring their creative potential.

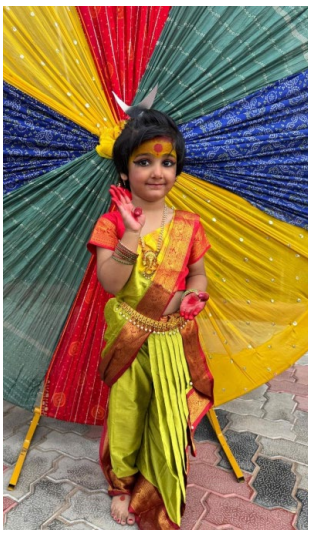

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

## Celebrating the Spirit of Dussehra

Students from IKS to Grade 5 celebrated Dussehra with great joy and enthusiasm. The celebrations featured special performances highlighting the victory of good over evil, followed by lively dance sessions and fun-filled classroom games. The younger students also took an oath to give up bad habits and embrace good ones. The day was filled with laughter, happiness and festive cheer, leaving everyone with wonderful memories before the Dussehra holidays.

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

## Halloween Celebrations – A Spooktacular Day at EWSA

The spirit of Halloween came alive as students from IKs to MPS celebrated the occasion with great excitement and enthusiasm. Dressed in colourful, creative and spooky costumes, students brought their favourite characters to life. A vibrant parade was organised on the school ground, where students confidently showcased their imaginative looks and spooky acts. The inter-house costume competition provided a wonderful platform for students to display their creativity, originality and confidence. The celebration was filled with laughter, cheerful moments and festive fun, making it a memorable day for everyone.

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

## Little Hands, Big Smiles and Happy Playtime!

Our IK-1 and IK-2 Tulips enjoyed a fun-filled PE session and outdoor playtime filled with laughter and excitement. The IK-1 learners worked together to balance and move a colourful parachute, developing coordination, balance and teamwork. Meanwhile, the IK-2 Tulips explored the jungle gym, enjoying the swings, slides and playful moments with friends. These activities encouraged sharing, listening, confidence and friendship. It was a delightful day of learning, laughter and growing together through play!

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

## Small Acts, Big Values: Celebrating Kindness & Gratitude

Our young learners from IKS to Grade 5 embraced the spirit of kindness, gratitude, respect and togetherness through meaningful daily rituals. They practised greeting others in different languages, expressing gratitude, wishing well for one another and thanking those who support them. Through these activities, children also learnt the importance of sharing, listening attentively, helping others and using thoughtful words. These simple practices nurtured empathy, strengthened friendships and celebrated cultural diversity. With cheerful smiles and enthusiastic participation, our little Edifians discovered how small acts of kindness can make a big difference!

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

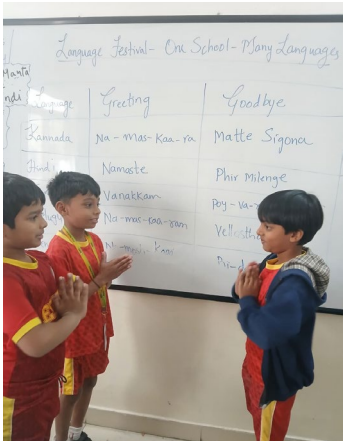

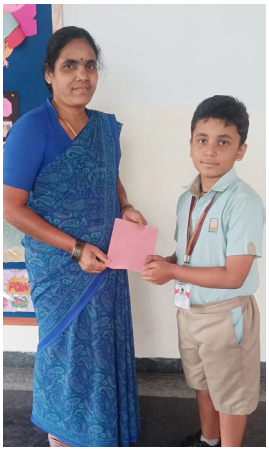

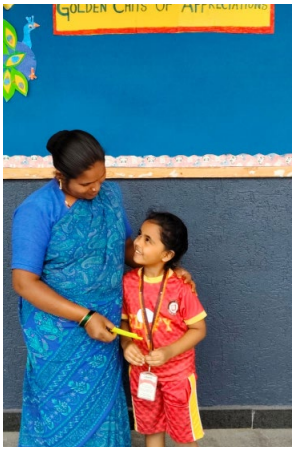

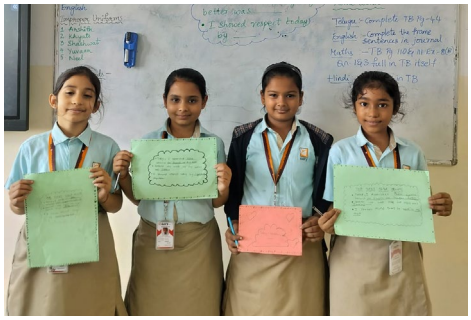

# LIFE AT SCHOOL: EVENTS & CELEBRATIONS

Grade 1 Edifians celebrated National Unity Day through a meaningful assembly, highlighting the values of unity, respect, kindness and teamwork. Grade 3 Inquirers and Explorers conducted an engaging morning assembly featuring the school song, pledge, thought, word of the day and news reading. A lively Term 1 questionnaire session encouraged enthusiastic participation, followed by an energetic Zumba dance. Both assemblies provided wonderful opportunities for students to learn, participate and celebrate the spirit of togetherness.

## CAREER & UNIVERSITY GUIDANCE

# Career Counsellor's Compass

Ms. Janisar Qureshi
University Guidance & Career Counselor

## *Strengthening the Career Cell: Preparing Students for an Evolving World of Opportunities*

***The careers of tomorrow will be shaped by new ideas, emerging technologies and the ability to connect knowledge across disciplines.*** In this evolving landscape, the Career Cell has a significant role to play in preparing students to make informed choices and explore opportunities beyond conventional career pathways.

As Career Counsellors, our vision is to create awareness among students and parents about emerging professions, interdisciplinary courses and the changing demands of the world of work. Having organised University Fairs and Career Panel Discussions, we have already created valuable platforms for students to interact with university representatives and professionals, explore higher education options and gain insights into different career paths.

Moving forward, we can build on these initiatives by introducing regular interactions with alumni, industry experts, entrepreneurs and professionals from emerging fields. Career Awareness Weeks, Career of the Month sessions and interdisciplinary workshops can familiarise students with opportunities in areas such as artificial intelligence, data science, behavioural economics, biotechnology, environmental studies and digital media. Alumni mentorship programmes, industry visits and job-shadowing opportunities can provide valuable real-world exposure.

Equally important is engaging parents through orientation sessions that highlight changing career trends, new university programmes and alternative academic pathways. A regular career newsletter can keep families updated about courses, scholarships, internships and university opportunities.

Our aim should be to make the Career Cell a dynamic and continuous guidance platform rather than limiting it to occasional events. ***Ultimately, we want every student to discover possibilities, recognise their potential and confidently choose a pathway that aligns with their interests, strengths and aspirations.***

# Understanding and Overcoming Learning Gaps: Empowering Every Child to Succeed

Every child learns at a different pace, and recognising individual learning needs is essential to ensuring academic progress. Highlighting the importance of early identification and timely intervention, the school emphasised the need to understand and address learning gaps that may affect a child's confidence and overall development.

Learning gaps occur when children have not mastered the foundational skills or concepts expected at their grade level. These may include difficulties in reading, writing, mathematics, comprehension, retention, attention and independent learning. Factors such as irregular attendance, missed lessons, inadequate practice, emotional stress and undetected learning difficulties can contribute to these gaps. A child's promotion to the next grade does not necessarily mean that earlier concepts have been fully understood.

Parents were encouraged to look beyond examination marks and observe everyday learning patterns, including difficulty recalling concepts, completing homework independently or applying previously taught skills. Regular communication between parents and teachers plays a crucial role in identifying specific areas that require attention. Where difficulties persist, support from special educators and, when necessary, further assessment by qualified professionals can help determine the child's individual learning needs. The importance of strengthening foundational skills through structured practice, achievable learning goals, interactive teaching strategies and regular progress monitoring was also highlighted. Equally important is providing emotional support, avoiding comparisons and appreciating every small improvement. Collaboration among parents, teachers and specialists can ensure that children receive appropriate guidance and intervention.

The central message was that learning gaps should not be ignored or viewed as a measure of a child's ability. Instead, they should be recognised as opportunities for improvement. Every child deserves patience, encouragement and the right support to progress with confidence.

The goal is not to compare children with others, but to help every child grow from their own starting point and become a confident, independent learner.

Ms. Uma Devi
School Wellness Counsellor

### Navigating Growth: From Experiential Learning to Future Aspirations

October was a month of academic focus, experiential learning and personal growth, offering students valuable opportunities to develop independence, resilience and ambition. From exploring the serene landscapes of Kerala to participating in hands-on STEM projects involving Robotics and Artificial Intelligence in Singapore, students stepped beyond their comfort zones. Managing their schedules and personal belongings while travelling away from home encouraged self-reliance, while shared experiences strengthened friendships, teamwork and confidence. The month also brought important reflections following the Parent-Teacher Meeting, where a common concern emerged: casual preparation often translated into examination anxiety when results were announced. Recognising that planning and time-management skills are still developing during adolescence, students and parents were encouraged to focus on building consistent study routines rather than becoming overwhelmed by final scores. Setbacks were presented as opportunities to identify gaps, reflect on learning habits and make meaningful improvements. Looking ahead, the UniExplore Career Fair provided senior students with an opportunity to explore their future aspirations and make informed academic choices. Interactions around university admission requirements, target scores and prospective courses encouraged them to begin planning their career pathways. Meanwhile, the recent sports selections reinforced the importance of teamwork, discipline and emotional regulation, helping students understand how to handle competition and challenges positively. Parents were encouraged to support their children by establishing balanced daily routines that include study, rest and adequate sleep, maintaining open conversations about career interests without creating unnecessary pressure, and promoting regular participation in sports and physical activities. Through these varied experiences, October emphasised the importance of nurturing well-rounded individuals who are academically prepared, emotionally resilient, independent and confident about the opportunities that lie ahead.

## WELL-BEING & GUIDANCE

# Wellness Counsellor's Column

Ms. Vanshika Singhania
School Wellness Counsellor

### Nurturing Emotional Well-being, Positive Behaviour and Inclusive Growth

The month of October focused on promoting students' emotional well-being, positive behaviour, and overall development through various counselling initiatives and individual support sessions. With the Dussehra break and Term-End Examination 1 during the month, students were encouraged to maintain a healthy balance between academics and personal well-being, manage examination-related stress, and return to their regular school routines with confidence. Individual counselling sessions addressed concerns related to anxiety, emotional regulation, peer relationships, classroom behaviour, concentration, and academic challenges. Special attention was also given to students with special educational needs through individualised support, regular observations, and coordination with teachers and parents to understand their specific learning requirements and provide appropriate assistance. Efforts were made to encourage positive interactions, improve classroom participation, strengthen coping skills, and create opportunities for students to express their thoughts and emotions in a supportive environment. The Wellness and Counselling Department continued to work closely with teachers, coordinators, and parents to ensure that students received the guidance and support they needed. Through these efforts, the month emphasised the importance of emotional awareness, inclusivity, and a healthy school environment where every student feels valued, understood, and supported in their learning journey.
